

**Professional Engineering Services –
Water Treatment Plant & Finished Water Transmission
Preliminary Engineering Report
RFP 2011-003-200**

Announcement

Pre-Proposal Meeting & Tour

- Proposers are reminded that anyone interested in taking the tour **MUST** notify Loudoun Water’s Purchasing Department by April 8, 2011. Please email Bessie Nelson, bnelson@loudounwater.org with confirmation your firm will be attending including the number of attendees.
- Each firm will be limited to no more than two (2) attendees per RFP (i.e. a proposer responding to both RFPs is limited to 4 attendees; a proposer responding to one of the RFPs is limited to 2 attendees).
- Loudon Water will provide transportation for the tour and there is a limit on the vehicle occupants. We ask each firm to be considerate of this limitation.
- Depending on the available time, the tour will generally consist of:
 - Proposed site for the raw water pump station and intake
 - Luck Stone Quarry A
 - Proposed site for the water treatment plant
 - Selected portions of the raw water transmission main alignment
