Supplier Registration Instructions

Supplier Registration

This document provides instructions on how to register your organization in Loudoun Water’s Ion Wave software. Please take note of the following.

- Each organization manages its own supplier database. Registration with other IWT clients does not grant access to Loudoun Water’s site.
- Completion of the registration process does not mean you will be awarded a contract with Loudoun Water.
- Review Loudoun Water’s purchasing website for detailed instructions.
- Any changes or modifications to the supplier profile will be completed by the supplier. It is not Loudoun Water’s responsibility to manage this information.
- For questions regarding your registration application, contract procurement@loudounwater.org.
- For technical assistance, contact support@ionwave.net or call 866-277-2645 ext. 4.

The system will search Loudoun Water’s Ion Wave supplier database for an existing supplier account. If a duplication is found, you will be prompted to **not create a duplicate supplier**. Click on ‘Cancel’ button to cancel the registration. If you need to have access to your account, contact the primary user of this account in your organization and request to be added as an additional user on the account.
