

Proposed Material Form

PROJECT NAME: _____

LOUDOUN WATER PROJECT ID # _____

CONTRACTOR: _____

SUPPLIER: _____

This form is for use on projects where linear assets (water, reclaimed water, and/or sanitary sewer) are being constructed on behalf of Loudoun Water. By submitting this form with the top section completed and the signature below, the contractor confirms that all water, reclaimed water and/or sanitary sewer materials used in the construction will conform to Loudoun Water's Engineering Design Manual, including the Standard Details and Approved Materials List. This form must be completed and submitted with the Construction Permit Package.

I acknowledge that this project is using the Standard Approved Materials

Signature and Date

Note: Loudoun Water will only accept this form (letter no longer accepted)

The highlighted items below are identified as project specialized materials that will require a shop drawing submission for review and approval by Loudoun Water. Shop drawings must be submitted online to Loudoun Water at submittals@loudounwater.org for review and approval by Loudoun Water prior to the issuance of the Loudoun Water Construction Permit. **Please Note: Materials should not be ordered until shop drawings are approved by Loudoun Water as NO exceptions will be granted.**

Specialized Materials

General Use Items

casing

casing spacers

Water

restrained joint piping system

vault

Reclaimed Water

restrained joint piping system

vault

blow down meter configuration

Gravity Sewer

restrained pipe through casing

manhole with reducing slab

grease interceptor

oil/water separator

grit collector/other pretreatment

reclamation system (e.g at car wash)

Other Items
